

Design Changes Doc

Home Page:

Remove this image

Edit How it Works image:

Edit text for "How it Works" image. Under "How it Works" there should be no text. Bold "How it Works, Browse Markets, Make a prediction, and Trade Your Shares."

We will change Browse Markets to "Browse Swaps"

For the text under Browse swaps we will write "Browse our wide selection of swaps markets from a variety of different sports"

For the text under Make a prediction we will write, "Test your skills by making a prediction for or against a particular option"

For the text under Trade your shares we will write, "Sell your shares if/when you feel it's the right time for maximum profits"

Under "How it Works" image we will show images of our mobile app with the writing "Mobile App Coming Soon"

At bottom of the screen we will change some of the text:

Under Quick Links, instead of markets it should say "Swaps"
Instead of Ending Soon, it should say "Upcoming Events"

Under Support, we can get rid of "security" link.

Remove LinkedIn button under Contact Us. We will only have facebook, twitter and google plus.
